

GREAT BRITAIN WILL TAKE PART IN EXPOSITION

Premier Asquith Said There Never Was Any Bad Feeling

HUNDREDS SOB ALOUD IN GRIEF AS PRIEST BREAKS DOWN ON ALTAR

Tonopah did honor to the memory of a young man in the ordinary walks of life, but whose most exemplary character and manhood endeared him to almost every citizen of the camp. The funeral of the late Andy Payne was a striking exhibition of the devotion felt for the youth who met his death in the West End service. Over 200 men followed the remains from the church to the railroad station and three orders sent delegations to testify to the respect they felt for the loss of one of their number. The Miner's union, Knights of Columbus and Loyal Order of Moose were at the head and the mountain of floral offerings told of

the generous impulses stirred by the story of the life and death of Payne. Last evening Knights of Columbus hall was thronged from early evening until long after daylight this morning. It is estimated that at least 1,500 hundred persons viewed the remains after Father Flynn had recited the rosary and prayers for the dead. The spacious hall was filled to capacity and the house committee had to send out to the Elks and other orders for chairs to accommodate hundreds who kept coming all through the evening. When the night shifts came off this morning just before daybreak there was another crowd of prayerful men who sank on their knees and bowed their heads in silent meditation.

PIONEER OF RENO PASSES SUDDENLY TO HIS LAST REST

JUDGE SAMUEL STANAWAY FOLLOWS HIS WIFE INTO THE BEYOND.

RENO, May 5.—Judge Samuel Stanaway, police magistrate for Reno, died suddenly yesterday afternoon at 1:30 at his residence in North Center street. News of his demise caused widespread sorrow, for the deceased was probably the most popular man who ever held office in this city, as proven by his receiving a record-breaking vote each time he was a candidate.

Sam Stanaway, as he was familiarly known, was 73 years of age and was a native of Canada. His wife was removed from him by death a year ago and since then the old man grew steadily more feeble under the burden of his sorrow and loneliness. Although stooped and careworn, it was not deemed that he was nearing his end until a few hours before his death.

He is mourned by two step-children, John Post of Reno, and Mrs. A. L. Titus of Los Angeles, Mrs. Alice Ayers of Placerville, Cal., a sister, and Mrs. Alice Mabel Stanaway-Briggs, of Boston, a niece.

The deceased was a native of Ireland, although a pioneer of Nevada, having come to this state in the early days. In 1871 he engaged in the cattle business in the Truckee valley with P. Hogan, of this city. He later moved to Reno and conducted a hotel. Fire destroying this enterprise he moved to Truckee and entered the service of the Southern Pacific company, where he remained for years. He is survived by two sons, John and Pat, a half brother living in Canada and one in Washington. Mrs. J. W. Winters, who died recently in this city, was a daughter of the deceased.

Must Eliminate Carranza As Well As Dictator Huerta

(By Associated Press.)
WASHINGTON, May 5.—The text of the Mexican mediators' telegram to Carranza, eliminating him from the proceedings, disclosed for the first time that the mediators held that "all difficulties that contributed toward the present situation in Mexico bear either directly or indirectly on a solution of the pending conflict between Mexico and the United States."

The message gives the first authoritative expression from them that they considered the whole range of Mexican difficulties, including the Huerta-Carranza issue, as having a bearing on the issue of the United States and Huerta.

REFUSAL WAS NOT A SLIGHT ON THE AMERICAN NATION

(By Associated Press.)
LONDON, May 5.—The British government is to reconsider its decision not to participate in the Panama Pacific exposition, and probably decide that Great Britain shall officially be represented in a modified form.

Premier Asquith received a deputation from the house of commons, representing more than half the membership, and promised to submit their views to the cabinet. The suggestion of the deputation was that the British erect a pavilion to serve as a rallying point for British subjects.

Asquith intimated this would be in the nature of a complimentary acceptance of the invitation to participate without great expenditure. The premier said the "government is bound to show deference to the recommendations endorsed by a majority of the house. It was mentioned as a mistake to suggest the refusal was intended as a slight to the United States. The contrary spirit was shown by the readiness to send a fleet to the opening of the canal. Americans quite understand the attitude of Great Britain, and it would be a calamity if Americans thought refusal to accept the exposition invitation had anything to do with the friendship of the two countries. Manufacturers are not eager to exhibit."

Notices calling for sealed bids to carry the mail between Manhattan and Tonopah, and Manhattan and Round Mountain, have been posted in the local postoffice. This is the second time bids have been called for on these routes, the bids submitted the first of the year all having been rejected. The department now plans to segregate parcel post matter from mail of other classes.

Advertisement No. 1 calls for carrying all mail from Manhattan to Tonopah and back, a distance of 53 miles, seven times a week. Advertisement No. 2 calls for transporting only first and second-class matter and perishable mail of the fourth class.

Advertisement No. 3 requires that the mail must be carried between the two camps seven times a week, or as many times as may be necessary, the contractor to handle only parcel post and third-class mail, but to transport all such mail offered, without regard to any change in regulations governing size or weight of parcel post packages by a schedule satisfactory to the department, not to exceed four days' running time between terminals. Bids will also be received to carry parcel post matter at so much per pound.

BACKS DOWN ON TOLL CLAUSE OF CANAL BILL

SENATOR STONE, OF MISSOURI, JOINS WILSON FORCES IN VOTING.

(By Associated Press.)
WASHINGTON, May 5.—With the explanation that the Baltimore platform merely approved congressional action asserting the right to exempt American vessels going through the Panama canal, and didn't sanction the granting of subsidies to coast-wise vessels, Stone, of Missouri, told the senate he would vote for repeal after voting for exemption in 1912. He said congress, in passing the exemption clause in face of England's protest, showed America's answer was the right to do as they pleased with the canal.

AURORA CONSOLIDATED MILL WILL START OPERATIONS

W. Lester Mangum, general manager of the Aurora Consolidated Gold Mines company, is now on his way to Aurora, Nev., to witness the starting up of the new 500-ton mill which is practically completed. By the time Mr. Mangum reaches the mill it is believed that the mill will be ready to be placed in commission.

The plant is the second largest in Nevada and was designed by the engineering firm of Kirk & Leavell. John H. Leavell has been the engineer in charge of both the mine and the mill. In many ways the plant is decidedly different from any of the other cyaniding plants. It is compact and can be run with the smallest number of men of any plant its size. Individual motors are used throughout. It has been passed upon by a number of engineers as the best arranged mill in Nevada. The stamps are heavier than usual, which is due to the ore being unusually hard.

During the past few months the mine has opened up in a manner that was hardly expected. The grade of the ore has improved considerably and there has been a large increase in the quantity blocked out.

BOTH SIDES ARE SUBJECT TO TRIAL FOR MURDER

MINE GUARDS AND STRIKERS WILL RECEIVE THE SAME TREATMENT.

TRINIDAD, Colo., May 5.—District Attorney J. J. Hendrick said today he had been asked by representatives of the southern Colorado mine owners to call upon Maj. W. A. Holbrook, commanding the federal forces in Colorado, and request him to arrest every man in the San Rafael tent colony of strikers on a charge of murder, growing out of the Forbes battle. Hendrick declared he had refused to accede to the request of the operators.

"This office will remain absolutely neutral in the matter of persecutions," he declared. "I did not ask Maj. Holbrook to use the military forces of the government in making arrests, because I do not believe in militarism. If any one has a complaint to make and can bring proof to substantiate it, I will take care of it, making the arrests myself. However, there's going to be a square deal in this affair. If the operators wish strikers prosecuted on murder charges in connection with the battle at Forbes, I shall insist upon being furnished with a list of the militiamen and mine guards who took part in the battle of Ludlow, with a view to prosecuting them on charges of murder and arson."

The district attorney explained he had not initiated any prosecutions and did not intend to do so, but he was ready to prosecute either strikers or mine guards or both, if complaints backed by proof were filed in his office.
